About the Chartered College of Teaching

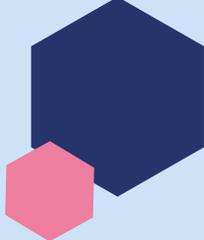

The Chartered College of Teaching is the professional body for teachers:

- working to celebrate, support and connect teachers to take pride in their profession and provide the best possible education for children and young people
- dedicated to bridging the gap between practice and research and equipping teachers from the second they enter the classroom with the knowledge and confidence to make the best decisions for their pupils
- giving teachers and school leaders access to a wealth of research, resources and insight to enable excellent teaching.

‘By bringing the profession together and giving teachers a platform for their voices to be heard and their expertise to be respected, we can raise the status of teaching together.’

- Dame Alison Peacock (CEO)
