SWIFT Celebrates Diversity, Equity and Inclusion (DEI)

As part of our Diversity, Equity and Inclusion (DEI) commitment to creating a sense of belonging for everyone, SWIFT is working with **Hannah Wilson**, co-founder of Diverse Educators.

Initially a grassroots network, Diverse Educators is now a training company working with all types of schools to support their DEI strategy and training needs, in the belief that schools are stronger, and can go further together, in collaboration with national and international organisations.

DEI Toolkits

The DEI toolkits are designed to support you – individually and collectively – in closing gaps in understanding.

Each toolkit has been collated by somebody with lived experience of the protected characteristic and/ or theme that it explores. They are all structured in the same way to include: what you need to know, the questions you need to consider and then signposting to things to read, watch and listen to.

Inclusion: Teaching and Learning to Unlock Social Mobility for Every Child

In the past 30 years, how children and young people learn has changed considerably as challenges of inclusion and social mobility have become more apparent. Cultural and social economic disadvantage is evident, as is the need to focus on mutuality in education, whereby all children and young people are valued regardless of their background, challenges or needs.

On behalf of the 'Context Agency Place and Education' Research and Knowledge Exchange Group, you are invited to join a topical and insightful presentation that guides us through evidence-based practice that will improve outcomes for all involved in education, increasing social mobility and inclusion in every sense.

Professor Sonia Blandford and **Stefan Burkey** are launching their new publication, Teaching and Learning to Unlock Social Mobility for Every Child, which is the first work to capture and clearly explain practical teaching and learning approaches that can be used in any school
