### Programme Outline

This NPQLT Programme typically takes up to 15 months (12 months delivery and three months for assessment) to complete, during which time participants will follow the course cycle below:

- **Evidence-based online content to build and refresh knowledge, as well as exemplify what this looks like for your role and level of leadership.**
- **A formative assessment task to support your learning.**
- **A face-to-face seminar with a group of peers, facilitated by a serving school leader or Teach First Development Lead - you will analyse and reflect on the task and hear further examples of good practice.**
- **The opportunity to record reflections and consolidate learning.**

This cycle repeats throughout the programme, with implementation a consideration in every course. Towards the end of the programme, you will also take a course focused specifically on effective implementation. This provides an opportunity to complete a significant but manageable change project as part of your role. There will be ongoing support through a seminar group and discussion forum.

This programme will help you to:

- develop as a specialist in areas related to your role, including by subject and phase (with content such as how to sequence a curriculum and plan effective assessment).
- work with serving school leaders and subject matter experts to turn new learning into changes in your own and others' practice.
- access a blended learning programme that is full of practical and tangible examples, flexible and tailored to your needs and areas of development and focus.
